

### **Reggio Children Cancellation Policy**

The professional development activity may be cancelled if the health situation in Italy, or in the foreign country of origin of the purchasing participant(s), requires it due to government measures or regional provisions. To this end, Reggio Children S.r.l. will be responsible for promptly informing all participants of such a possibility, proposing an alternative date to be agreed upon with the participant(s) within one year of the date initially arranged.

Reggio Children is not responsible for further costs deriving from any changes or cancellations of the program in the above-mentioned cases or from any quarantines that oblige participants to extend their stay.

In the event of a participant's proven and documented positive Covid test result or in the event of isolation of a participant's cohabiting family member found up to the day of the start of the professional development program, the participant is entitled to withdraw from the professional development program and receive a full refund. The participant will have to cover travel, board and accommodation costs at their own expense with an appropriate travel cancellation insurance policy.

A participant who tests positive for Covid-19 after the start of the professional development activity will not be entitled to any refund of professional development fees already paid. The participant will also be responsible for any additional travel, board, accommodation and hospital costs.

### **Travel Insurance**

It is recommended that participants have an appropriate travel insurance policy in the event of cancellation and/or modification of travel, board and accommodation.

### **Accident and Medical Insurance**

It is recommended that participants have individual insurance coverage for the following:

- Accidents of any type that may occur during the Initiative. (Reggio Children S.r.l. will provide for the participants an insurance for damages caused to people or things inside the municipal institutions)
- Medical/hospital and/or hospitalization expenses for any additional days spent in Italy, in the event of any general health problems and/or any health emergencies that may arise.
